

SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

This treacherous disease dwells in the body and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood. This dangerous and stealthy disease entrenches itself securely in the system and attacks the bones and tissues, destroys the red corpuscles of the blood, resulting in white swelling, a pallid, waxy appearance of the skin, loss of strength and a gradual wasting away of the body.

S. S. S. combines both purifying and tonic properties, and is guaranteed to be a vegetable, making it the ideal remedy in all scrofulous affections. It purifies the deteriorated blood, makes it rich and strong and a complete and permanent cure is soon effected. S. S. S. improves the direction and assimilation of food, restores the lost properties to the blood and quickens the circulation, bringing a healthy color to the skin and vigor to the weak and emaciated body.

Write us about your case and our physicians will cheerfully advise and help you in every possible way to regain your health. Book on blood and skin diseases free.

PROF. ELLENBERGER HERE

He will Confer with the Trustees of Fairmount.

Professor C. A. Ellenberger of Harrisburg, Pa., arrived in the city last night. He comes in response to an invitation from the trustees of Fairmount college. Professor Ellenberger has had a great reputation as a teacher of music and organist and manager of the department of music connected with the West Virginia state university. The president of the board of trustees of the university writes: "He works as teacher and administrator has been continuously successful." "The music faculty here has been given to the school how his fully demonstrated his varied qualifications for his most excellent position." Professor Ellenberger has had charge of the chapel music, the choral societies, two glee clubs, given instruction in voice and church choir, holding his work in the university school of music. Professor Ellenberger leaves the West Virginia university for climate reasons, as affecting his family. He will remain in Wichita several days, looking over the hotel and conferring with the Fairmount authorities and musical people of the city. It is hoped that arrangements can be made to secure his services to the college and to Wichita.

GOOD RACES
END THE FAIR

Half Mile Dash Is Made in 49 Seconds.

MANY EVENTS PULLED OFF

Thornfield and Driver Go Up Against Fence.

The crowd that saw the events at the fair grounds yesterday was not large, but it was an enthusiastic aggregation. The races were the best of the week. There were six, and they were pulled off in a fashion that reflects credit on the starter, Charles Irwin. No fast time was made. It's all over now. There are but few of the visitors to the carnival left in this city. Many town people have to see the crowd go, but more wait with gladness for the return of normal conditions. The last day at the fair grounds was more lively than is usual with the closing day. When the first race on the program was called, the following judges were in the stand: E. E. Abbott, John L. Wideman and W. F. Standman. These gentlemen were very harmonious and quick in arriving at a decision, which at times was made difficult by close matches.

The last race for 100 was the most possible feature of the afternoon. It took Bonds four beats to take first money, although his best time was 1:25.50, stepped off in the first heat. In this heat Thornfield was second, Alice Roosevelt third and Fantasia fourth. The second heat resulted in Thornfield pushing his nose under the wire first, followed by Bonds, having jumped the lead in the first heat. Bonds in this heat was third, but in the heat she took second place and yet wasn't given a full run. Fantasia was fourth in every heat but the last, when he got third place owing to an accident to Thornfield. The time for the last two heats of this race was 1:25.50 and 1:25.50. Within six weeks of the race, Bonds, driving Thornfield, lost his grip on his right leather and pulled the latter right into the fence. Horse and rider were thrown, but neither was hurt. It was a narrow escape from a death fall.

The other harness race was a match between Red Rogers and Dickman, the former having the best of all races but one. The third heat saw Dickman a neck ahead of the other apologetic horse. This race was a 250 pace for \$25, but the last time was made in the third heat, 2:25.50. Governor Stone was second under the wire in the last heat, fourth in the second and third in the last two. He got third money. J. R. B. brought up the rear in all but the second heat, when he got third place. The time for the first, second and fourth heats was 2:25.50, 2:25.50 and 2:25.50.

Between the races, as was promised, the owners of the 100 race performed many difficult feats on their horses and took several times on the backs of the winners. These men seem thoroughly to enjoy the sport and the applause which goes with it. They will return to the track today. It was reported yesterday that some of these men were talking of starting a wild west show, but this report could not be confirmed.

The horse that was entered by four riders, Cox, Anthony, Beattie and Deak, they came in after a five-mile race in the position named above. The last mile was ridden in 2:25.50.

The mile dash by chain saws was a very picturesque race. The little saw company did well, Fred Lawrence capturing his animal under the wire first at a clip. A flock of this race was the fact that the first quarter was done in 25 while the last was in 35.50. Curt Reynolds was second in the race. The other starters were Lee Arrington, Zack Miller, Ben Hunter, Bill Coover, Johnny Brewer and Jim Hopkins.

There were six entries for the half-mile dash. Willie C. was the very good one. He was second. Donk Wait third. Tom Arnold fourth. Dick Carpenter fifth. Five-seconds mile was as pretty a race as there was for the day. Six Jim jumped in ahead of Dick Clark and Dr. Hansen, these last two horses coming down from the stretch back and neck.

The 100 race was a very close one. The judges turned the last quarter. Dick predicted his nose away and asked and with a clatter he pushed a full nose ahead of Hansen fifty feet from the wire.

The premium list for the 100 race is as follows:

NOW READY
FOR BUSINESS

Wichita National Bank Will Open Doors Tomorrow.

OFFICERS, STOCKHOLDERS

Combined Represent Vast Amount of Wealth.

The National Bank of Wichita will swing its doors open for business at 9 o'clock tomorrow, a new and strong financial institution being added to the business of Wichita with a capital stock of \$100,000.

The new bank building just completed is one of the finest rooms in the city and it has a good location on Douglas avenue. The bank will have a savings department governed by the regular rules of savings banks and interest on deposits will be paid. Then there will be a ladies' department, which will be something new in banking in this city. The ladies will not have to take their place in line with men, and wait their turn when doing business.

The stockholders of this bank represent all classes of business men and their combined wealth would be sufficient to start a goodly number of banks with a capital stock of \$100,000.

C. T. Granger, president of the bank, is a banker well known in Iowa, from which state he comes. He was for thirty years in the bank, twice years of which time he was one of the judges of the supreme court of the state and for ten years he has been a director in several banks in Iowa.

R. S. Granger, vice president, is an active young man who has had experience in banking in Iowa. He was a director in the Knoxville National bank and the Marion county bank in the same place. The prominent men of that place who have bought stock in the Wichita National bank show that the people there have confidence in R. S. Granger.

George W. Robinson, cashier, comes from Winfield, Kan. He was for twenty years cashier of the First National bank of Winfield and when the First National bank of Arkansas City suspended he was appointed receiver by the controller of the currency to wind up its business. He is what the politicians would call a good mixer and has the elements of popularity in his makeup. The local people who have taken stock in the bank are conservative and they have given their confidence in Mr. Robinson. Following are the stockholders and their business:

Commandable Enterprise.
Mr. C. E. Langston, who is making the largest savings bank for the National Bank of Commerce, is making with the most gratifying success in Wichita. The greatest obstacle of a small, landless bank is the fact that the money you cannot open it or shake the money out. As soon as you accumulate a few dollars you can take it in the National Bank of Commerce, where it will be secured and the deposits placed to your credit on your pass book. These little sales were first introduced here about five years ago and have since then been a source of opportunity of securing one at that time and hold in their pockets, as they have proven the means of accumulating in many cases a small fortune.

The bank charges you nothing for the use of the safe, as the one dollar required to open your account is returned to you whenever you desire to return the safe. The National Bank of Commerce is to be commended for its enterprise in placing these money safes in the homes, as it is recognized by all the leading financiers as the only means by which people of limited means can accumulate.

Mr. E. H. Mueller received a telegram from the Hospital doctor of Alamogordo, New Mexico, stating the illness of his son, Luther E. Mueller, who is with the Alamogordo lumber company, as a photographer and had been in C. E. Brown's care. Friday night to care for him and bring him home.

It is understood that at two or three of the churches this morning processions will be held in connection with the midday attractions in Wichita this week.
